Overall Feedback on the Institution: Teachers

Date.....

2022-2023

Feedback from the faculty members was taken by the IQAC on the overall facilities provided by the institution including grievance redressal. It is found from the feedback that the level of satisfaction is encouraging. A total five (05) questions were asked and thirty-five (35) respondents responded.

Questions	Status of Library Facility	Status of ICT Support Facility	Status of Working Atmosphere	Status of Research Facilities	Administrative Promptness to Redress Problems
Satisfaction level	92%	91%	85%	72%	91%

Observations:

1) Status of Library Facility: Quite satisfactory & encouraging.

2) Status of ICT Support Facility: Despite being an undergraduate college and in spite of financial constraints, the institution has made a significant progress in this ICT support facility. The responses given by the faculty members are evidence of this effort.

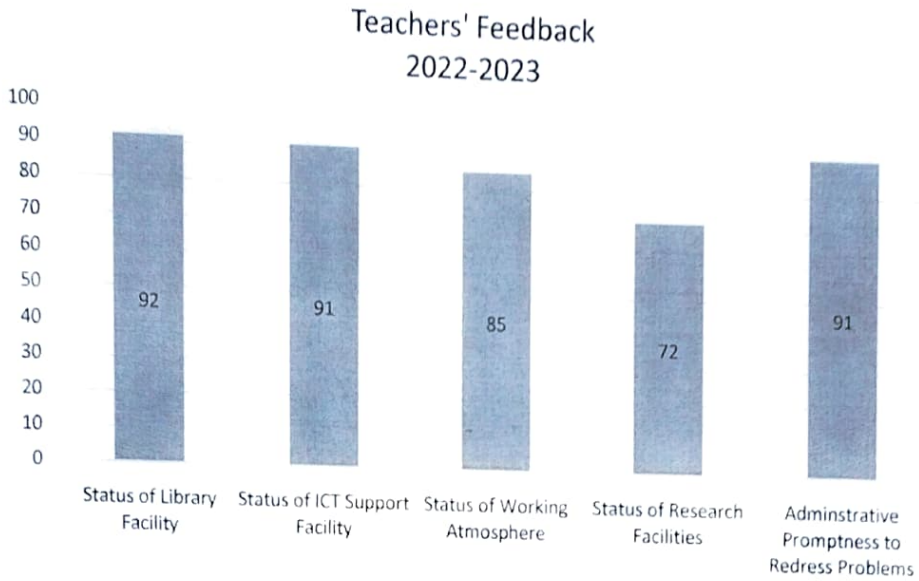

3) Status of Working Atmosphere: Working place atmosphere is important for the employees. Authority is very conscious about it. Conducive atmosphere prevails in the institution. 85% of the faculty members are happy about the working atmosphere.

4) Status of Research Facilities: In an under graduate college, research facility is often not given due importance because of lack of scope and opportunity. Yet our institution promotes the research facilities of the college within its limitations to its faculty members. The institution provides facilities like online resources, leaves to attend seminar, workshops, Orientation and Refresher courses, and financial assistance in some cases. A journal with ISSN is regularly published by the institution. These facilities have encouraged the faculty members to publish research articles. Small progress is noted from the feedback comparing with the previous year (71%- 72%).

5) Administrative Promptness to Redress Problems: Authority is responsive and sensitive to the problems and demands of the employees .Whenever there is any demand or grievance ,the

authority takes prompt steps to redress it at the earliest. Satisfaction level on these issues has also increased (89%in 2021-22 to 91% in 2022-2023)as per the feedback given by the faculty members.

Employer's Feedback

2022-2023

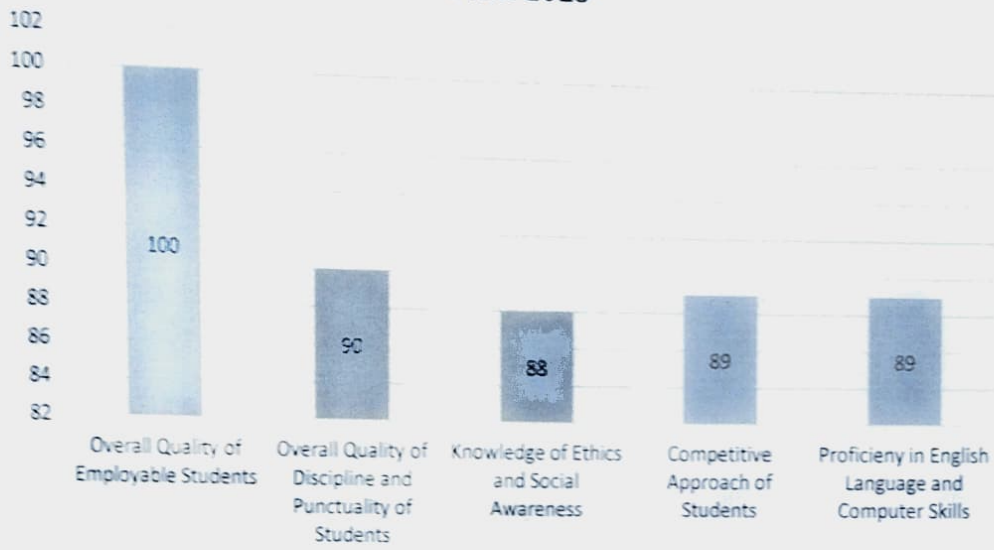

The institution has collected feedback from the employers for the session 2022-2023. Like previous years, this feedback aims at gauging the perception of the employers about our students. The following report has been generated from the responses that we have received.

Observations:

- 1) Overall Quality of Employable Students:** Around 100% of the faculty members expressed satisfaction regarding the overall quality of our students.
- 2) Overall Quality of Discipline and Punctuality of Students:** It is found that 90% of the employers are satisfied.
- 3) Knowledge of Ethics and Social awareness among Students:** We are proud to find that our students demonstrate excellent ethical practices and social awareness. The responses validate our endeavour. More than 88% respondents believe that they possess strong ethical and moral values and social awareness.
- 4) Competitive Approach of Students:** 89% of the respondents believe that our students are competitive in their attitude.
- 5) Proficiency in English Language and Computer Skills:** Students from the rural regions lack proficiency in English and are not as well exposed to computer as students hailing from cities. Most of our students come from weaker socio-economic backgrounds. They often come families that are unaware about advances in technology or the need to develop English proficiency. They cannot afford the luxury of buying a computer. Our institution is committed in providing access to computer and internet within the college campus and encourage the development of computer skills and proficiency in English Language. 89% of the respondents appear to be satisfied.
